TURBOELECTRIC INFLATOR

Benefits

- **Durable**
- **Inflate bags fast with a continuous, constant stream of air.**
- **Increase work efficiency by eliminating dead time associated with air tank replenishment.**
- **Effective alternative to pneumatic inflators**
 - o **Does not require a separate air compressor.**
- **Self-regulated, no gauging required for most bags.**
 - o **Maximum air pressure is 2.5 to 3.0 psi.**
 - o **The ideal inflation tool for Centerload's level 1 Gorilla bags and Load Warrior II bags.**
- **Control switch is located conveniently on the air hose for easy access.**
- **Light weight and compact**
- **Available in 220volts (Please call for more details)**
